

TAGORE DENTAL COLLEGE & HOSPITAL

Date: 31.12.2019

Community based learning

The institution has 2 satellite clinics, one in the urban area of Sadanandapuram which is about 5 Km from the college and the other one in rural area of Kellakottaiyur which is about 7 Km from the college. Both the satellite clinic has a dental chair. With light, instrument tray, spittoon, airrotor connections, micro motor along with furniture for seating of doctors and patients sterilization and disinfection equipments and materials.

One staff and CRR I Students are regularly posted in the satellite clinics. All routine treatments are done in the clinics and patients needing advanced care are referred to the college for further treatment.

The staffs and students conduct regular camps in and around the satellite clinics with mobile vans. The students visit the villages around the centre and create awareness and screen patients for dental diseases.

These give opportunity for the CRR I students to work in the community and handle patients in the rural environment at their own Locations. The students get to see the troubles and difficulties faced by the public and the environment where they live and get a perspective of the life of common man. Here they students get exposure of the patients habits and know their level of knowledge and awareness of oral health.
