

TAGORE DENTAL COLLEGE & HOSPITAL

E- Governance policy document

Our college has a policy of paperless work. Hence steps are taken to achieve it. One of them is e- governance so as to compile and store data. It simplifies work for the staff and easy to retrieve data as and when necessary.

Library software helps to store data on books & journals purchase, lending and return of books and library usage. It helps to create report and books commonly used, books available department wise and the expenditure on books & journals. JAPAR is a part of library software which is online and helps student's education.

Student software accumulates data when they join and compile data of their attendance, terminal and university marks.

Tally is used for Accounts and stores and bulk SMS is used to send regular SMS to parents on Student attendance, holidays, exams and fees payments.

Hospital management software helps to maintain patient records and retrieve as and when necessary.
