1.	PTA REPORT

TAGORE DENTAL COLLEGE & HOSPITAL

PTA report

Parents get to meet the staffs and mentors twice a year, after the first terminal exams in December when the slow learners are identified and in June before the University exams when the year progress is reported.

The parents are given details of the student's attendance, work completion in lab and clinics, performance in terminal and other exams, their interest show in studies and extracurricular activities and their behavior towards the staffs.

The parents give a feedback on the positive and negative points that they have heard from their wards about college, hostel, transport and what they have observed.

The feedback of the parents has made us change the buses from Swaraj Mazda buses to deluxe buses in 2016 and recently in 2019 to Air conditioned buses. The hostel mess which was run by private parties was taken over by the management in 2017 to provide good, nutritious and hygienic food. Also the menu is changed as per the request of parents and students.

The contractor of the canteen of the college complex was also changed as the parents gave a poor feedback and also was not hygienic. ATM also was provided as per the request of the parents. Library hours were extended to 8.00 PM.
