

**Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socio-economic and other diversities.**

**Add a note on how the Institution has leveraged its location for the services of the community (within 100- 200 words).**

#### INCLUSIVE ENVIRONMENT

The institution is situated in Vandalur which is a suburban area of Chennai city and surrounded by many villages and small-scale industries and the real estate is booming. The college caters to students of various religions like Hindus, Christians, Muslims and Jains.

The students come from various socio-economic backgrounds.

There is no discrimination of students based on religion, caste, creed, or Socio-economic conditions.

The steps initiated towards inclusive environment are

- The teachers are approachable and advised to assess individual needs, learning preferences and goals.
- The teachers are instructed to be fair towards all students and ensure all students have equal access to opportunities and participation.

Festivals like Navaratri, Christmas were celebrated by all the students and staff members.

We conduct camps and awareness programs in many places and Tobacco Cessation Counselling also will be done at the camp site for the tobacco consumers.

Nedungundram village has been adopted by the institution to create awareness about general health and oral health of the people. On account of international women's day sanitary napkins were distributed to all the women in the village and awareness talk on female hygiene was given by Gynaecologist.

<b>VENUE</b>	KARANAIPUDUCHERI NEAR URAPAKKAM
<b>DATE</b>	4TH FEBRUARY 2021
<b>TIME</b>	09:30 AM TO 12.30PM
<b>PARTICIPANTS</b>	INTERNS AND DEPARTMENT STAFF OF PUBLIC HEALTH DENTISTRY AND ORAL MEDICINE &RADIOLOGY DEPARTMENT

Cancer is one of the leading causes of morbidity and mortality worldwide with approximately 14 million new cases and it is the second leading cause of death globally which is responsible for 9.6 million deaths in 2018

Around one third of deaths from cancer are due to the 5 leading behavioral and dietary risks such as high body mass index, low

fruit and vegetable intake, lack of physical activity, tobacco use and alcohol use. These risk factors are easily modifiable by creating awareness.

Cancer can be prevented and controlled by implementing evidence-based strategies for cancer prevention, screening and early detection, treatment and palliative care.

The world cancer day was observed across the world on **February 4**, with an aim to unite the world's population in the fight against cancer and to save millions of preventable deaths by raising awareness and education about the disease, pressing governments and individuals across the world to take action.

The theme for world cancer day 2021 is

**‘I Am and I Will’** which is being continued since 2019

Preventing and fighting this malaise is of paramount importance and we as a society should stand together in our fight against this scourge.

With an attempt to create awareness of cancer and to encourage its prevention, conveying the message that cancer is curable its common detection methods and treatment options available among people living in Karanaipuducheri, Department of Public Health Dentistry, and Department of Oral Medicine & Radiology, Tagore Dental College and Hospital has organized a awareness campaign at Karanaipuducheri.

Permission to conduct the awareness programme was obtained from village head.

Interns have educated the public by performing skit on causes, symptoms as well as about the prevention and treatment modalities of various types of cancer. Need for the program was explained by the village head.

Awareness speech on causes of cancer and how to overcome it about cancer prevention and lifestyle modification, early diagnosis, various types of cancer and its causes was explained by Dr.Vaishnavi, Reader, Department of Public Health Dentistry.

Speech about various dental diseases and its causes, when to visit dentist was explained by Dr.Prabhugandhi, Lecturer, Department of Oral Medicine & Radiology

Cancer screening was also done individually for all the people attended the awareness program

All the students and staff members had actively involved in creating awareness among general public on cancer prevention and treatment modalities. The response from the public was very good .It was a great eye opener for the general public as they posed all their queries about cancer prevention and got them answered. These small acts on world cancer day should have made phenomenally powerful impact this year.

Department of Public Health Dentistry and Oral Medicine & Radiology thank all the students for spreading the word and who do the work every day to create a healthier, brighter future for all.

And, to everyone who believes that a world without cancer is a world worth speaking up for.

We thank our chairperson Prof. Mala mam and our principal Dr. Chitraa. R. Chandran mam for giving us an opportunity to conduct this program.

### **INTERNATIONAL WOMEN'S DAY-8<sup>th</sup> MARCH 2021**

<b>VENUE</b>	<b>NEDUNGUNDRAM VILLAGE</b>
<b>DATE</b>	<b>8<sup>th</sup> MARCH 2021</b>
<b>PARTICIPANTS</b>	<b>FIRST YEAR STUDENTS (Enrolled in NSS), INTERNS and DEPARTMENT STAFF</b>

**INTERNATIONAL WOMEN'S DAY** is being celebrated globally on March 8 every year.

The theme for International Women's Day 2021 is

**'Choose To Challenge'**

### **INTERNATIONAL WOMEN'S DAY CELEBRATION**

Tagore Dental College and Hospital conducted NSS regular activity for International Women's Day (IWD) on 8th MARCH 2021

The female students of Tagore Dental College and Hospital celebrated International Women's day by conducting a skit on female hygiene awareness among the women at Nedungundram village, Kanchipuram district, Tamilnadu. Around 30 first year students who are enrolled in NSS (National Service Scheme), 2 staff coordinators travelled to Nedungundram village to execute the campaign

The main objective of the program was to create awareness against breast cancer, cervical cancer, pregnancy and menstruation and against various social stigmas on menstruation and also emphasize on the sanitary hygiene measures conducive to health.

The awareness programme was conducted by National Service Scheme of Tagore Dental College and Hospital. Awareness talk was given by **Dr.Premalatha** Chief Gynaecologist., Tagore Medical College and Hospital, Rathinamangalam.

She spoke about the women's personal health hygiene and created awareness about the breast cancer, cervical cancer, their diagnosis, examination and methods of treatment.

The program was followed by the distribution of Comfort Layer sanitary napkins for around 120 women in Nedungundram village.

After that, an awareness skit was performed by students regarding breast cancer, cervical cancer, pregnancy, menstruation and acid attack awareness.

The campaign involves an awareness speech and skit in Nedungundram village. All the students had actively involved in creating awareness about women health and hygiene among general public on breast cancer prevention and treatment modalities. The response from the public was very good. It was a great eye opener for the general public as they posed all their queries about female hygiene and breast cancer prevention and got them answered. These small acts on International women's Day would have made a phenomenally powerful impact this year.

## **PROGRAM OVERVIEW**

### **AT TAGORE DENTAL COLLEGE**

1. Skit on health awareness
2. Game show
3. Interactive session with public
4. Pamphlet distribution
5. Vote of thanks

### **AT HILTON MATRICULATION SCHOOL, CHROMPET**

1. Awareness talk
2. Examination of BMI , BP, BLOOD GLUCOSE LEVEL for the working staff of the school

## **PROGRAM DETAILS:**

The program started with a welcome note by Dr. Lakshmi, Senior Lecturer Dept of Public Health Dentistry followed by a small skit played by the interns of our department.

The skit was performed for duration of 20 minutes; the core concepts demonstrated by the students are as follows:

1. Take care of our physical as well as mental health- talk to someone in case of depressions
2. Avoid obtaining medical information from unauthorised sources like social media platform
3. Always buy medications using valid prescriptions, do not misuse antibiotics usage through OTC
4. Breaking oral myths.
5. And finally importance of hand washing and measures for preventing COVID infection.

The hand washing technique was performed by student and the audience were asked to repeat the same to check their compliance.

The skit was followed by a small game show where different varieties of food groups were placed on the table and the audience were asked to select one group and talk about the same. Later the students explained in detail about the food groups, the nutrient it contains and its effect on our oral and general health. The response to program was quite good with about 25-30 participants in both the events.

Following this, we had an interactive session by the staff members of Public Health Dentistry department with the public to clarify their doubts and enlighten their knowledge horizon.

Pamphlets in Tamil depicting healthy habits, Covid preventive measures were distributed to the public to increase their awareness about the current situation.

The celebration came to an end with, the vote of thanks given by Dr. Vaishnavi, Reader (HOD in charge), Department of Public Health Dentistry followed by a group photo.

Later a team of 4 house surgeons along with Dr Kumar Raja, Senior Lecturer, Dept of Public Health dentistry visited Hilton Matriculation School, Chrompet to spread the awareness on healthy lifestyle and measures to combat COVID infections.

A small talk by the interns about various healthy habits was imposed to the staffs of the school using a power point presentation. Then the team examined the BMI, BP and blood glucose for both teaching and non-teaching staffs.

All the students and staff members had actively involved in creating awareness among general public on healthy lifestyle and Covid prevention. The response from the public was very good .It was a great eye opener for the general public as they posed all their queries and got them cleared through expert opinions . These small acts on world health day ensure that communities are at the forefront in decision-making processes as we move forward to a new future, and that everyone has living and working conditions that are conducive to good health.

NSS unit of Tagore dental college and hospital heart fully thank all the students for their active participation in making the program a grand success.

## Department of Periodontics

### World Health Day Celebrations 2021

07.04.2021

The Department of Periodontics, Tagore Dental College celebrated World Health Day on Wednesday, 07.04.2021 under the guidance of Dr. Chitraa R Chandran, Principal and Head (Periodontics), Tagore Dental College and Hospital.

### Oral Health Awareness Lecture (Google Meet)

The Department of Periodontics, Tagore Dental College organized an online health awareness lecture via Google Meet application for students of **Tagore Engineering College, Chennai**. The Speaker of the Day was Dr.B.Bhuvanewari, M.D.S., Professor, Department of Periodontics, Tagore Dental College and Hospital and she gave an enlightening talk for 30

minutes focused on creating oral hygiene awareness and educating them on the systemic implications of poor oral hygiene. The lecture was attended by 70 participants.

Following the lecture, a general health awareness camp was conducted for the faculty of Tagore Engineering College. The team consisted of Dr.B.Bhuvaneshwari, Dr.T.Parthasaradhi, Dr.Juala Catherine, Dr.Vignesh Vikram and interns Ms.Rajeshwari, Ms.Preetha, Ms.Nithyashree, Ms.Navapriya, Ms.Varshini, Ms.Ragavi, Ms.Pooja, Mr.Tanish, Mr.Vijay and staff nurse Ms.Arthi.

All covid-19 protocols were strictly adhered to wherein all participants were provided hand sanitizer prior to their medical examination and all the interns were wearing gloves and N-95 masks during their interaction with participants.

Blood pressure, body weight and blood glucose levels were checked for all participants and the interns explained about the significance of any variations in these parameters to all participants. On examination, the blood glucose level for a participant was found to be 470 mg/dl and the features of diabetes mellitus was explained to the participant and advised to seek further medical advice following this.

A total of 15 participants were benefitted out of this programme.
