CURRICULUM COMMITTEE

The Curriculum Committee meeting will be held on 01-03-2022 at 1.00 pm in the HOD's room, Department of Conservative Dentistry and Endodontics. All the curriculum committee members are kindly requested to attend.

Agenda:

1. Discussion on the reports submitted by the course chairpersons on the gap analysis report of individual courses.
2. Introducing two new faculties to the curriculum committee.
3. Suggestion to document clinical photographs routinely by students for the purpose of DSCE and OSPE.
4. To write a letter to the university regarding the suggestion on documentation of clinical photographs for University examination.

Curriculum feedback:

Feedback on curriculum was collected from the 5 stake holders for 2021-2022 using an electronic form: students, alumni, faculties, parents and employer. The feedback report was analysed. The stake holders did not require any major change in the curriculum and they agreed that the existing curriculum was adequate. The committee thus decided not to make major amendments to the curriculum.

Course and program outcomes:

- On the direction of the curriculum committee, the course heads state various outcomes pertaining to their courses and evaluate it on the students.
- The students are assessed based on the various domains of each course by the faculties for the current academic year on a scale of 0-3
- The course outcome values of all the courses ranged between 2 and 3 for 2021-2022. i.e., the outcome was substantial). Gap analysis was subsequently done.
- The following recommendations were made based on the gap analysis report: To institute modern methods of teaching to students and to implement innovative teaching methods appropriately. This was formally communicated to the various course heads to formulate a plan of action.
- The course heads came out with a corrective action plan to improve the outcomes in the subjects concerned to be implemented for the next academic year. As the existing outcome for the courses were already substantial, the action plan was to further improve the existing outcomes.
- This included innovative teaching methods like group learning, role plays, zig-zag classes, flash cards, direct observation of procedural skills, peer assisted learning, participatory learning etc., (Refer annexure at the last)
- The evaluation of the corrective action plan will be assessed in the following academic year.

DEPARTMENT OF PERIODONTICS

The following are the objectives of the course outcome of Department of Periodontics.

CODE	NAME OF THE SKILL	ASSESSMENT
CO 1	Assess and analyse the normal gingival and periodontal structures. Describe and differentiate gingival and periodontal diseases and conditions.	-Theory classes on normal and diseased gingival and periodontal structures -MCQs and Terminal exams -Assignment / Google Classroom -Clinical assessment of the gingival changes and structures in patients
CO 2	Thorough understanding of etiopathogenesis of periodontal and peri-implant diseases. Able to identify the relationship between the periodontal diseases and various medical conditions	-MCQs & Quiz -Theory Exams -Assignment / Google Classroom -Group Discussions
CO 3	Demonstrate the ability to recognize and diagnose various forms of periodontal and peri-implant diseases. Diagnose and provide appropriate treatment for the condition	-OSPE -Theory exams -Assignment / Google Classroom -Model assessment -Clinical Assessment and grading
CO 4	Ability to apply the appropriate diagnostic technique to diagnose periodontal diseases such as probing depth assessment, various indices, radiographic and other lab investigation interpretation	-Clinical assessment of case sheet recording
CO 5	Identify, plan and execute non surgical and surgical periodontal treatment procedures	Clinical assessment of case sheet recording -Clinical cases Grading
CO 6	Communicate and demonstrate appropriate measures in the prevention of periodontal diseases	OSPE Role Play
CO 7	Analyse the role of inter-disciplinary approaches in periodontal/peri-implant therapy and referral to the specialist	Clinical assessment of case sheet recording Group Discussion
CO 8	Assess and evaluate the performed	Clinical assessment of cases done

	treatment outcomes	
CO 9	Inculcate a sense of social responsibility and capability to deliver periodontal healthcare to the underprivileged sections of the society Deliver oral health care to patients from different backgrounds, stages of life and in various settings	Camps attended Patient education and motivation grading
CO 10	Implement an effective infection control and environmental safety program that complies with regular standards	Sterilization protocol - assessment

The Chairman

Curriculum Committee

Tagore Dental College and Hospital

Rathinamangalam

To:

The Head of the Department

Dept. of Periodontics

TDCH

(Subject: Feedback report of Periodontology from stake holders reg:-)

Respected Sir,

Based on the curriculum feedback collected from the stake holders of the college, the following gaps were identified in the curriculum implementation. I request you to submit a report on the action plan formulated and implemented to overcome the gaps.

Based on the inputs regarding the course outcome from the various stake holders (students, parents..) the following observations were made with respect to the subject of Periodontics.

The graph of areas of assessment is attached herewith for necessary action.

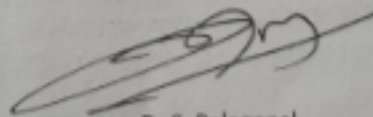

Kindly work an action plan and submit a report of the same to the IQAC.

Feedback report:

1. Overall, the values of various domains ranged from 2.4-2.6 (upper limit- 3). This implies the curriculum implementation is substantial. Any teaching innovations or additions to the curriculum like value added courses implemented to achieve the optimal score can be included.

Thanking you,

Your's truly

Dr S. Balagopal

DEPARTMENT OF PERIODONTICS

The following are the questions that reveal the objectives of the course outcome of the subject Conservative Dentistry & Endodontics. It is essential that every student should possess, acquire or develop the knowledge, skill and attitude in the areas that will be reflected by the questions given hereunder. [Cognitive, psychomotor and affective domain]. Each area of requirements will be evaluated using specific assessment tools.

COURSE OUTCOME 1 – Overall score (2.4) Substantial; students have sufficient knowledge to differentiate between normal and abnormal periodontal conditions

Continuous assessment with theory classes on normal and diseased gingival and periodontal structures, MCQs and Terminal exams, Assignment / Google Classroom, Clinical assessment of gingival changes and structures in patients.

COURSE OUTCOME 2- Overall score (2.4) Substantial; students have sufficient knowledge of aetiopathogenesis of periodontal and peri-implant diseases. Able to identify the relationship between the periodontal diseases and various medical conditions.

Continuous assessment with MCQs & Quiz Theory Exams, Assignment / Google Classroom, Group Discussions.

COURSE OUTCOME 3- Overall score (2.6) Substantial; students have sufficient knowledge to diagnose and can provide appropriate treatment for the condition.

Continuous assessment with OSPE, Theory exams, Assignment / Google Classroom, Mock assessment, Clinical Assessment and grading.

COURSE OUTCOME 4- Overall score (2.5) Substantial; sufficient knowledge on ability to apply the appropriate diagnostic technique to diagnose periodontal diseases.

To continue in clinical case assessment, assisting, case recording.

COURSE OUTCOME 5- Overall score (2.5) Substantial; sufficient knowledge on how to identify, plan and execute non surgical and surgical periodontal treatment procedures.

To continue Clinical assessment of case sheet recording, Clinical cases Grading

COURSE OUTCOME 6- Overall score (2.5) Substantial; sufficient knowledge to communicate and demonstrate appropriate measures in the prevention of periodontal diseases.

Continuous assessment by OSPE, Role Play, Group discussion

2022/9/14 10:46

COURSE OUTCOME 7- Overall score (2.6) Substantial; sufficient knowledge on interdisciplinary approaches in periodontal/peri-implant therapy and referral to the specialist.

To continue in assisting in clinical cases and case discussions and involve more in interdisciplinary treatments and co-ordinating with other departments.

COURSE OUTCOME 8- Overall score (2.5) Substantial; sufficient knowledge on how to assess and evaluate the performed treatment outcomes.

To continue in assisting in cases.

COURSE OUTCOME 9- Overall score (2.6) Substantial; sufficient knowledge on how to deliver oral health care to patients from different backgrounds, stages of life and in various settings.

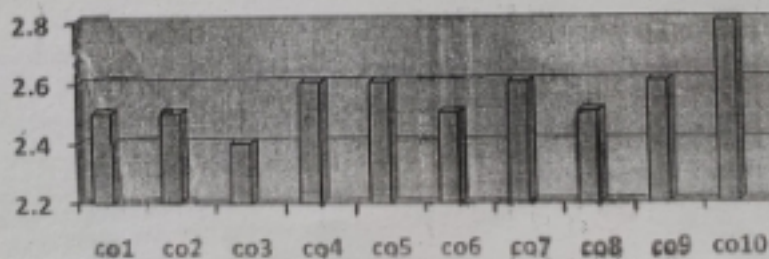

Continue to involve students in attending camps and improve patient education and motivational skills.

COURSE OUTCOME 10- Overall score (2.8) Substantial; sufficient knowledge on how to implement an effective infection control and environmental safe.

To continue in educating sterilisation protocol and discussions.

Analysis of the report:

The course outcome of the subject was assessed in various dimensions namely diagnosis, clinical application of basic knowledge of anatomy and pathology of the periodontium, ability to diagnose the underlying cause of the diseases, ability to utilize various diagnostic aids, various methods of treatment planning and treatment procedures, effective patient communication, and knowledge about referral. The outcome was assessed based on 10 different domains. The average values of the domains ranged around 2.4-2.6, procuring an overall rating of substantial. This data reveals the learning outcomes and delivery of curriculum is adequate. The teaching methods may be further emphasized to target score of 3. The chart below shows the values of the various domains assessed.

Respected Sir,

With reference to your letter dated 27/01/2022 on the curriculum feedback given by stakeholders of the college, we have gone through the feedback report and the action plan for the upcoming year will be as follows:

- 1) We are planning to conduct value added courses for CRI and Post-graduate students.
- 2) We will implement more innovative teaching methods in addition to the methods we are following regularly.

Thanking You,

Yours Sincerely,

(Dr. B. Bhuvaneshwari)
