

GUEST LECTURE
DEPARTMENT OF ORTHODONTICS
SKELETAL MATURITY INDICATORS

Date: 30 OCTOBER, 2019

Time: 9 am – 10:30 am

Attendees: Final Year BDS Students

Resource Person: Dr. Xavier Dhayanand MDS, Sathyabama University

Dr. Xavier kept the audience latched on to his lecture from the word go. The constant interactive gaps kept the whole session focussed on the topic. It was really a good and enlightning session for all the attendees.

Dr. Xavier also suggested short cuts to remember the ever increasing number of Pnemonics in the topic. He also recommended certain ways to ensure that topic stays in the memory. He used simple language & many examples to push important points home.

Overall this program was very useful & valued by all the attendees.
