

Tagore Dental College & Hospital

Department of Periodontics, Tagore Dental College, Rathinamangalam

In collaboration with IDA Madras Branch

Live Webinar by Dr.Bagavad Gita, M.D.S, PhD.

02.10.2020, Friday, 4 pm to 5 pm

The Department of Periodontics, Tagore Dental College & Hospital in collaboration with Indian Dental Association Madras Branch organized a Live Webinar via Google Meet application for students and dental practitioners on Friday, 02.10.2020 under the guidance of Dr. Chitraa R Chandran, Principal and Head (Periodontics), Tagore Dental College & Hospital. The Speaker of the Day was Dr. **Bagavad Gita**, M.D.S., Ph.D., Professor and Head of the Department, Sree Balaji Dental College, Chennai and she gave an enlightening talk on “**Periodontal Health – A Reflection of Systemic Health**”.

Dr. Bagavad Gita spoke at length about the impact and influence of systemic conditions on periodontal health. She went into detail about common systemic conditions like cardiac diseases, pregnancy and respiratory diseases and how they each get influenced by the presence of periodontal disease and vice versa. Dr. Bagavad Gita explained each condition in detail with all supporting evidences so the attendees from various streams of dentistry and others can directly perceive the significance of periodontal disease and learn to apply this knowledge to their existing practices.

Dr. Bagavad Gita ended the presentation by talking about the association of Coronavirus with periodontal disease and treatment protocols to be followed by dentists. This was in relevance to the current situation and helped clarify many doubts that most dental practitioners have now towards resuming their regular clinical practice. Time was allotted after the lecture for a lively discussion with students and practitioners regarding periodontal health and systemic health and the impact of these factors in various treatment modalities. Many practical and clinical questions were raised and Dr. Bagavad Gita patiently answered each one of them in full detail and clarity.

The guest lecture was live streamed on YouTube and Facebook also for wider audiences reach and the live stream was expertly facilitated by Dr. D. Doreen Robin, Director, Computational Intelligence Research Foundation.

The webinar was allotted 1 Credit Point by Tamil Nadu Dental Council and attended by IDA members, general dental practitioners, general health care personnel, dental students and faculty from across the world. Over 200 participants attended the live webinar across all digital streaming platforms. All participants received E-Certificate of attendance after the webinar.
