

TAGORE DENTAL COLLEGE & HOSPITAL
DEPARTMENT OF ORAL & MAXILLOFACIAL SURGERY

BASIC & BEYOND PHOTOGRAPHY

In dentistry, photographs play a very important role in day to day academics and clinical practice. Photographs are an integral component in presentations, publications, documentation and also in patient education. It is very prudent for the dentist to be good in photography and to be able to make reasonably good pictures.

NOTE ON THE SPEAKER:

One of his hobbies since younger days has been PHOTOGRAPHY. He has always had a very keen interest in the art & science of photography and has pursued his interest since college days and always made use of opportunities to learn more and more in the field of photography.

From the past few years he has been able to make time to pursue this interesting hobby and has gained a lot of knowledge and experience in photography. He is a keen wildlife photographer and regularly conducts and organises wildlife photography tours to Kenya, Tanzania, Ranthambore, Kabini, Bandipur and other wildlife parks. He has been instrumental in actively conducting various workshops and lectures and presentations on photography on many occasions for different groups of photography enthusiasts. He regularly conducts his monthly Hands on Workshops in Basic Photography and workshops across the country.

TOPICS COVERED:

1. Basics In Photography
2. Camera Handling And Frame Composing
3. Indoor And Dim Lighting Management
4. Clinical Photography
5. Gadget Requirement And Selection In Photography
