27 - 02- 2015 (Friday), 8.30 AM.
AUDITORIUM

Greetings from Tagore dental college.

This highly interactive workshop provides Interns with the essential knowledge and skills for placing a dental implant. With small group participation in a comfortable setting, this workshop with live demo provides a unique personalized learning experience

Workshop objectives:

To equip participants with the knowledge to,

1. Understand the fundamentals of implant dentistry.
2. Identify indications and limitations of dental implant placement to help ensure appropriate patient selection.
3. Carry out proper diagnosis and treatment plan.
4. Conduct all aspects of patient preparation and surgical placement.
5. Carry out evidence based prosthodontic restoration of dental implants including impression making prosthesis design, occlusion and cementation.
