

## **ROTARY ENDODONTICS CERTIFICATE COURSE 2019**

SPEAKER OF THE PROGRAM : DR. S. BALAGOPAL, PROFESSOR AND HEAD,

Just as each step of endodontically treating and restoring a tooth is connected , the techniques and tools you use at every stage of the procedure must also work together. The main objective of this CDE is to provide the clinician with clear and accurate indications on the use of new technologies to deal with all stages of endodontic treatment in a simple and fast way until tooth reconstruction. There were three sessions totally. First and second lecture session about the Diagnosis and treatment planning , Endodontic anatomy, Endodontic access, Glide path management, Shaping the canal space, Irrigation protocols, Obturation techniques . Followed by the hands-on practical session with Protaper Gold rotary instrument for the selective delegates in the natural tooth model. Finally all the delegates were presented with their certificate of appreciation by Dr Balagopal.S
