## BASICS & LATEST – BONE GRAFTING & SINUS LIFTS

### LECTURE & VIDEO SURGICAL DEMO

Dr Chitraa Chandran  
Periodontist,  
Chennai

Dr Venkatakrishnan CJ  
Prosthodontist,  
Chennai

Dr Jimson  
Oral & Maxillofacial Surgeon,  
Chennai

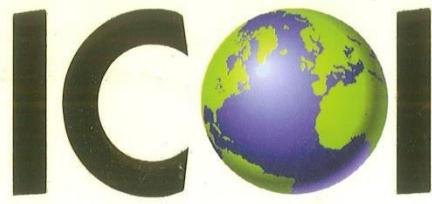

We do not always have sufficient bone to place implants in the posterior maxilla. We are often caught in a dilemma about the timing and the methods to improve the bone height for the placement of dental implants. This course will help the beginners and doctors with limited experience in placement of implants in the maxillary posterior region to enhance their knowledge about the basics in the management of these conditions, grafting materials/applications. The other highlight of this course is to teach the participants the Sinus - lift technique. Preparation and application of PRP is another added attraction. At the end of the course, the participants will have knowledge about various techniques in management of posterior maxilla.

#### Program Details:

- ▶ Introduction to sinus lift & anatomy
- ▶ Grafting Materials
- ▶ Indirect sinus lift – Lecture & Video demonstration
- ▶ Lateral window technique – Lecture & Video demonstration
- ▶ Sinus Lift with Sinulift – Lecture & Video demonstration
