Research committee of Tagore Dental College and Hospital organized a field visit for the CRRI students to Animal House Facility, Tagore Medical College and Hospital, Rathinamangalam on 23rd February, 2024. The visit aimed to provide students with practical insights into animal study activities, animal welfare and advocacy.

Upon arrival, we were warmly welcomed by Animal house staff member. He introduced us to the shelter and explained its day-to-day operations, emphasizing the importance of providing care and shelter to animals in need.

Throughout the visit, we engaged in discussions with shelter staff and volunteers, learning about their experiences and the challenges they face in maintaining the animal house.

The laboratory houses rats, mice and rabbits. Each species of animals is housed in barrier maintained individual rooms to avoid disease transmission and inter-species conflicts. The animals are guarded from dust, smoke, noise, wild rodents, insects and birds-in fact anything that would disturb their habitat. A high degree of hygienic conditions (macro- and micro- environment) around the animals are maintained as per the CPCSEA guidelines.

The veterinarian keeps them under daily observation and monitors any behavioural changes or signs of illness. He supervises their diet and sanitation and contributes to the formulation of appropriate policies and procedures for ancillary aspects of veterinary care.

Students were explained about the Animal House registration with the Committee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA), Ministry of Environment and Forests, Govt. of India. They were also explained the facilities, policies and practices concerning the care and use of animals.

We sincerely thank our esteemed Chairperson, Prof. Dr. M. Mala ma'am and our respected Principal, Dr. C.J. Venkatakrishnan sir for their guidance and support.
