### **DEPARTMENT OF PERIODONTICS**

**Guest Lecture - "Non Surgical Periodontal Therapy"**

**Invited Speaker – Dr.Ram Sabarish**

**Associate professor ,Sri Ramachandra Dental College &Hospital,**

**DATE:02.03.2023**

Department of Periodontics, Tagore Dental College & Hospital, Chennai organized a Guest Lecture by Dr. Ram, Associate professor , Sri Ramachandra Dental College & Hospital, Chennai for the final year BDS students on Non-Surgical Periodontal Therapy on Thursday ,02.03.2023.

Dr.Ram Sabarish was introduced to the students by Dr.B.Bhuvaneswari ,Professor and Head

Department of Periodontics.

Dr.Ram gave an introduction about the periodontal pathogenesis and the disease progressions. He spoke in detail about various treatment modalities, different types of non-surgical approaches, challenges and complications associated with phase I therapy for periodontitis.

The lecture was made very interactive and interesting with the students participating actively throughout. Dr.Ram Sabarish also gave some activities for the students in between his lectures which made the students highly enthusiastic and active.

The lecture was also exam oriented with an exhaustive list of probable questions and the key points to be highlighted. Dr.Ram Sabarish concluded the lecture by getting feedback forms filled by the students. Dr.C.J.Venkatakrishnan ,Principal, Tagore Dental College & Hospital felicitated the guest speaker with certificate.

### **PROGRAM REPORT**

#### **“EARLY CHILDHOOD CARIES- AN OVERVIEW”**

Early childhood caries (ECC) is a serious public health problem in both developing and industrialized countries. ECC can begin early in life, progresses rapidly in those who are at high risk, and often goes untreated. ECC can be a particularly virulent form of caries, beginning soon after dental eruption, developing on smooth surfaces, progressing rapidly, and having a lasting detrimental impact on the dentition. The relationship between breastfeeding and ECC is likely to be complex and confounded by many biological variables, such as mutans streptococci, enamel hypoplasia, intake of sugars, as well as social variables, such as parental education and socioeconomic status, which may affect oral health. Unlike other infectious diseases, tooth decay is not self-limiting. Decayed teeth require professional treatment to remove infection and restore tooth function.

Our guest speaker Dr.Kirthiga M. gave an informative lecture about Early childhood caries including Oral hygiene measures, Stages of ECC, Diagnosis, treatment planning, Prevention and proximal caries classification along with appropriate case photos. The students benefitted from this interactive and enlightening session which will improve their knowledge & skills on the topic.

### REPORT

Epidemiology is the study of how often diseases occur in different groups of people and why. Epidemiological information is used to plan and evaluate strategies to prevent illness and as a guide to the management of patients in whom disease has already developed. The Department of Public Health Dentistry, Tagore Dental College and Hospital conducted an offline guest lecture titled “**EPIDEMIOLOGICAL STUDIES**”, on Monday (27-03-2023) at final year classroom. Around 87 final year students had participated in the guest lecture. The guest Speaker for the lecture was **Dr. T. NAGALAND MDS** who currently works as Reader in department of Public Health Dentistry at Chettinad Dental College and hospital, Chennai, Tamil Nadu. He has a teaching experience for 6 years.

The lecture started at 8.30 AM with an introductory note about the speaker by Dr. Vaishnavi. S, Reader and Head (I/C), Department of Public Health Dentistry. Later, **Dr. T. NAGALAND** continued the session and gave insights to the students about general epidemiology, various study designs. He also elaborated on descriptive epidemiology, analytical epidemiology and various types of study design used in the field of epidemiology. The students actively interacted with the speaker and clarified various doubts to enhance their knowledge on the topic.

The session finally came to an end by enlightening the students about the importance of guest lecture and certificate was given to the guest lecturer by our principal Dr. C.J. Venkatakrishnan sir. We thank our chairperson Prof. Mala mam and our Principal Dr. Venkatakrishnan sir for giving us an opportunity and encouragement to conduct this guest lecture.

#### **GUEST LECTURE**

A Guest lecture was organized by The Department of Oral Medicine and Radiology on 05.04.2023 (Wednesday) for final year B.D.S. students. **Dr. B. NIVEDITHA, M.D.S**, Associate professor, Oral Medicine and Radiology, Madha Dental College and Hospital, Chennai, was invited to deliver a lecture on "Radiation Physics".

The event started at 8.30 AM with an introduction of speaker by Dr. P. Sindhu M.D.S., Senior Lecturer, Department of Oral Medicine and Radiology. It was followed by the lecture for one hour. In her lecture she emphasized on the basics of Radiation Physics with a detailed explanation on X-ray production, properties and working principle.

At the end of the guest lecture, Vote of thanks was delivered and Certificate of Appreciation to the speaker was given by Dr. G.S. Asokan, Professor and H.O.D, Department of Oral Medicine and Radiology. As per the feedback received from the students the lecture was very informative and interesting.

### **Guests:**

**DR. Senthil Murugan**

Professor

Dept of OMFS.

Saveetha Dental college and hospital

### **Summary :**

The Program started with the welcome address by Dr.R.Riaz and Dr Balakrishna felicitated the Guest Speaker. The lecture began at 9:35 AM by Dr Senthil Murugan on the topic of cleft lip and palate followed by which Vote of thanks was given by Dr C J venkatakrishnan. The lecture was attended by Final year students. The session was interactive as the speaker engaged with the audience by asking questions and clearing their doubts. The participants found the lecture to be very informative.

### REPORT

Clean water is a basic necessity of every human being. Water purification can significantly improve the quality of the water. Water purification systems remove all types of contaminants and hazardous substances from the water, which makes the water clean and safe to drink. The Department of Public Health Dentistry, Tagore Dental College and Hospital conducted an offline guest lecture titled “**Water-Sources, Purification and Safety**”, on (29-08-2023) at third year class room. Around 65 third year students had participated in the guest lecture. The guest Speaker for the lecture was **Dr. A. Vinita Mary MDS** who currently works as Professor and Head in the Department of Public Health Dentistry at Thaimoogambigai Dental College and Hospital, Chennai, Tamil Nadu. She has a vast teaching experience for 13 years.

The lecture started at 8.30 AM with an introductory note about the speaker by Dr. Vaishnavi. S, Reader and Head (I/C), Department of Public Health Dentistry. Later, **Dr. A. Vinita Mary** continued the session and gave insights to the students about Water, various sources of water, water safety and the purification methods of water. She also elaborated on the importance of assessing the safety criteria for drinking water in daily life. The students were profoundly involved in the class and enthusiastically interacted with the speaker during the session and they have clarified various doubts to enhance their knowledge on the topic.

The session finally came to an end by giving an insight for the students about the importance of guest lecture and certificate was given to the guest lecturer by Vice Principal Dr. Sai Krishna. We thank our chairperson Prof. Mala mam and our Principal Dr. Venkatakrishnan sir for giving us an opportunity and encouragement to conduct this guest lecture

### DEPARTMENT OF ORAL MEDICINE AND RADIOLOGY

#### TAGORE DENTAL COLLEGE AND HOSPITAL

#### GUEST LECTURE

A Guest lecture was organized by The Department of Oral Medicine and Radiology on 21.09.2023 (Thursday) for third year B.D.S. students. **Dr. C.L KRITHIKA, M.D.S**, Associate professor, Oral Medicine and Radiology, SRM Dental College and Hospital, Ramapuram, Chennai, was invited to deliver a lecture on "Orthopantomograph".

The event started at 8.30 AM with an introduction of speaker by Dr. P. Sindhu M.D.S., Senior Lecturer, Department of Oral Medicine and Radiology. It was followed by the lecture for one hour. In her lecture she emphasized on the basics of Orthopantomograph with a detailed explanation on working principle, indications and interpretation.

At the end of the guest lecture, Vote of thanks was delivered and Certificate of Appreciation and memento to the speaker was given by Dr. G.S. Asokan, Professor and H.O.D, Department of Oral Medicine and Radiology. As per the feedback received from the students the lecture was very informative and interesting.

**Report**

Dr. Poorni, Professor, VELS Dental College and Hospital was invited for the guest lecture. Dr. Vandana James, Professor, introduced the speaker of the day to the second year students. The students welcomed the speaker.

Dr. Poorni gave a lecture on the topic "Physical properties of Dental Materials". She spoke about the simple and complex mechanics of the materials that are important to know for the students to choose which restorative materials will be ideal for replacing the lost tooth structure due to caries and cavity preparation.

Correlation of properties of dental materials with already we studied physics!

Stress, strain, modulus of elasticity related to the restorative materials used

Teaching

Learning objectives were clear

The diagrams made it more understandable

Chalk and board method with teaching from basics

Things which are not in my head are interesting.

Teaching in diagram

Way the mam teach

Good

Interaction

The way she used diagrams was interesting and that was helpful and easy to understand.

Way of approach is interesting.

The way mam correlated physics and the subject without making us bored is impressive

Class was lucid and clear to understand

Stress and strain

Teaching with chalk and board with relevant diagrams

Diagram

Chalk and talk

chalk and board

Chalk and board method

Yeah

Teaching

it was interesting from the start to end

Making pathway towards something new chapter

Chalk and board

The Way Mam taught us through diagrams to explain concepts .

About stress and strain

Giving live examples

all aspect are more interesting

Diagrams

Easily understandable and very simple. Use of chalk and board with diagrams

the way mam presented the lecture was super understandable and easy

Tooth preparation and pulp protection

Diagram part

Diagram presentation

While using board

When random questions were thrown at the students

Power point presentation

Everything was interesting and useful

Diagram teaching with chalk and board method was nice

Chalkboard

Way of teaching

Chalk board

Nil

The use of simple diagrams for the better understanding of a concept on chalk and board.

Young's modulus

Everything

Everything

Elasticity

Everything!

Way of teaching

Diagrams with explanations

Interaction of lecturers

Interaction

Chalk and board method and correlating physics to physical properties were easy to understand

Explanation was good and nice teaching method

Teaching with chalk and board was interesting and explain with diagram was easy to understand

The way of teaching with chalk and board was more interesting and with the diagram are are very useful to understand the concepts

Chack and board teaching

The teaching was very elaborate and the concept was made easy to understand with the use of good diagrams.

#### **GUEST LECTURE**

A Guest lecture was organized by The Department of Oral Medicine and Radiology on 03.04.2024 (Wednesday) for final year B.D.S. students. **DR. R. SANKAR NARAYANAN, M.D.S** Reader, Oral Medicine and Radiology, Sree Balaji Dental College and Hospital, Pallikaranai, Chennai, was invited to deliver a lecture on "**Pigmented lesions of oral mucosa**".

The event started at 8.30 AM with an introduction of speaker by Dr. P. Sindhu M.D.S., Senior Lecturer, Department of Oral Medicine and Radiology. It was followed by the lecture for one hour. In his lecture he emphasized on **Pigmented lesions of oral mucosa** with a detailed explanation on classification, etiology, pathophysiology, clinical significance and treatment.

At the end of the guest lecture, Vote of thanks was delivered and Certificate of Appreciation and memento to the speaker was given by Dr. G.S. Asokan, Professor and H.O.D, Department of Oral Medicine and Radiology. As per the feedback received from the students the lecture was very informative and interesting.

### REPORT

Epidemiology is the study of how often diseases occur in different groups of people and why. Epidemiological information is used to plan and evaluate strategies to prevent illness and as a guide to the management of patients in whom disease has already developed. The Department of Public Health Dentistry, Tagore Dental College and Hospital conducted an offline guest lecture titled “**INTRODUCTION TO EPIDEMIOLOGY**”, on Monday (08-04-2024) at final year classroom. Around 74 final year students had participated in the guest lecture. The guest Speaker for the lecture was **Dr. V. ANU MDS** who currently works as Professor in department of Public Health Dentistry at Sathiyabama Dental College and hospital, Chennai, Tamil Nadu.

The lecture started at 9:30 AM with an introductory note about the speaker by **Dr. Vaishnavi S**, Reader and Head In charge, Department of Public Health Dentistry. Later, **Dr. V. ANU** continued the session and gave insights to the students about Introduction to epidemiology, various study designs. She also elaborated on descriptive epidemiology, analytical epidemiology and various types of study design used in the field of epidemiology. The students actively interacted with the speaker and clarified various doubts to enhance their knowledge on the topic.

The session finally came to an end by giving vote of thanks by **Dr. Vaishnavi S**, Reader and Head Incharge, Department of Public Health Dentistry. Certificate to the guest lecturer was given by Dr. Vaishnavi S. We thank our chairperson Prof. Mala mam and our Principal Dr. Venkatakrisnan sir for giving us an opportunity and encouragement to conduct this guest lecture

#### **Guest Lecture - "CHRONIC PERIODONTITIS"**

**Invited Speaker – DR.S. SANGEETHA, MDS**

**Professor**

**Department Of Periodontics**

**SRM Dental College and Hospital (Ramapuram)**

**DATE:16.04.2024**

Department of Periodontics, Tagore Dental College & Hospital, Chennai organized a Guest Lecture on Tuesday, 16.04.2024 by Dr. Sangeetha, Professor, Department of Periodontics, SRM Dental College, Ramapuram, Chennai.

Dr.Sangeetha was introduced to the final year BDS students by Dr.B.Bhuvaneshwari

,Professor and Head of the Department, Department of Periodontics.

Dr. Sangeetha started with the introduction about Chronic Periodontitis. She spoke in detail about definition of chronic periodontitis, their clinical features with clinical signs and symptoms along with radiological features.

The lecture was made very interactive and interesting with the students participating actively throughout. The lecture was also exam oriented with an exhaustive list of probable questions and the key points to be highlighted. An objective response in the form of multiple choice questions were discussed at the end of the session.

The lecture was concluded by collecting feedback forms filled by the students. A total of 71 participants were benefitted by this guest lecture.

Dr.C.J.Venkatakrishnan, Principal and Dr.Bhuvaneshwari, Professor and Head of the Department, Department of Periodontics felicitated the guest speaker with certificate and memento.

### **PROGRAM REPORT**

#### **“SUCCESSFUL MANAGEMENT OF MOLAR INCISOR HYPOMINERALISATION”**

The Department of Pediatric Dentistry organized a guest lecture for final year Bachelor of Dental Surgery (BDS) students. The lecture, titled "Molar Incisor Hypomineralization (MIH): Diagnosis, Management, and Clinical Implications," was delivered by Dr. Kota Bala Chaithanya Prasad, MDS, Reader, Department of Pediatric And Preventive Dentistry, Venkateshwara Dental College. The event was held in Final year Lecture hall was and attended by 74 students.

The primary objective of the lecture was to provide an in-depth understanding of Molar Incisor Hypomineralization (MIH), its etiology, clinical presentation, diagnosis, and management strategies. This report summarizes the key points discussed during the lecture and highlights the significance of MIH in clinical practice for future dental professionals.

Dr. Kota Bala Chaithanya Prasad began the lecture with a comprehensive definition of MIH, describing it as a qualitative defect in enamel affecting one to four first permanent molars and frequently involving permanent incisors. He emphasized the global prevalence of MIH.

MIH typically presents as demarcated opacities in the enamel, varying in color from white to yellow or brown. The affected teeth are often hypersensitive and prone to rapid caries development. The speaker displayed several clinical photographs to illustrate the typical presentation and severity spectrum of MIH and outlined the diagnostic criteria for MIH. Various treatment options for the condition were also discussed.

The guest lecture on Molar Incisor Hypomineralization was highly informative and well-received by the final year BDS students. It provided a comprehensive overview of MIH, from its etiology and clinical presentation to diagnostic criteria and management strategies. The lecture equipped students with essential knowledge and practical skills to effectively diagnose and manage MIH in their future dental practice.

The department extends its gratitude to Dr. Kota Bala Chaithanya Prasad for his expertise and valuable contribution to the academic development of our students.

### **REPORT**

A guest lecture on the topic "Centric Jaw Relation" was organized for the final-year BDS students by the Department of Prosthodontics on 31st May 2024. The session, held from 9:00 AM to 10:00 AM, was attended by 76 enthusiastic students. The lecture was delivered by Dr. B. Gajapathi, a renowned MDS and Professor at VELS Dental College, Chennai. He provided valuable insights into centric jaw relation, a crucial aspect of Prosthodontics. The discussion highlighted the importance of achieving an accurate centric relation for successful rehabilitation of patients requiring complete dentures, partial dentures, and other dental prosthetics.

The resource person elaborated on the techniques used to record centric jaw relation, focusing on clinical applications. Common challenges faced by dental professionals in this process were addressed, along with strategies to overcome them. The session was a combination of theoretical knowledge and practical demonstrations, making it highly informative for the students. The lecture concluded with an interactive Q&A segment, where students asked questions about real-world scenarios and the application of centric jaw relation in clinical practice. The engaging approach and wealth of knowledge shared during the session were well-received by the participants. Overall, the guest lecture was a significant learning experience, offering students deeper understanding and practical insights into essential Prosthodontics concepts. The Department of Prosthodontics expresses gratitude to Dr. Gajapathi for his valuable contribution and thanks all participants for their active involvement.

#### **GUEST LECTURE**

A Guest lecture was organized by The Department of Oral Medicine and Radiology on 11.09.2024 (Wednesday) for final year B.D.S. students. **DR. PRAVDA. C, M.D.S**, Professor and Head, Oral Medicine and Radiology, Sathyabama University Dental College & Hospital, Old Mamallapuram Road, Chennai, was invited to deliver a lecture on "Oral Cancer Investigations and Management".

The event started at 8.30 AM with an introduction of speaker by Dr. P. Sindhu M.D.S., Senior Lecturer, Department of Oral Medicine and Radiology. It was followed by the lecture for one hour. In the lecture ma'am emphasized on **Oral Cancer Investigations and Management** with a detailed explanation on etiology, pathophysiology, clinical significance and treatment.

At the end of the guest lecture, Vote of thanks was delivered and Certificate of Appreciation and memento to the speaker was given by Dr. G.S. Asokan, Professor and H.O.D, Department of Oral Medicine and Radiology. As per the feedback received from the students the lecture was very informative and interesting.
