SUMMARY

Pre-clinical excellence for competition for under graduates has been conducted for the past ten years in Tagore Dental College and Hospital since 2013. Even during COVID pandemic it has been conducted with appropriate safety protocols. It has been conducted to promote and develop necessary Pre-clinical skills required for undergraduates. Enthusiastic participation from various colleges made it a successful event.

11th Pre-Clinical Skills Excellence Competition was held on 16th July 2024. 100 students from various colleges in & around Chennai had participated in the program.

The events commenced as scheduled with the registrations at 8.30am followed by the inauguration. Around 10.am the class II cavity preparation was held in the pre-clinical conservative lab. Total of 95 students participated in it. Students were provided with typhodont teeth (36/46) mounted in phantom head. They were instructed to do Class II Cavity preparation with a base application, matricing and wedging. The time limit of 60 minutes was given for each participant. Prof.Dr.V.Susila Anand M.D.S, Professor and Head of the Department of Conservative dentistry, Madha dental college and hospital was invited to judge. Two best students were awarded first & second prizes.

It was followed by tooth carving competition which started at 11.00 am in the oral pathology lab. Total of 87 students participated in 4 batches. Students were provided with wax blocks for tooth carving. Rest of the other instruments needed for carving like wax carvers, scale, mackintosh sheet, polishing cloth were brought by the participants. Permanent maxillary left first molar tooth(26) was given to carve in a time limit of 60 minutes. Dr. R Ramya M.D.S, Professor and Head of - the Department of Oral Biology, Saveetha dental College and Hospital was invited to judge the competition. Two best carvings were selected and awarded based on morphology, dimensions, finishing & polishing.

The class I teeth setting competition conducted in the pre-clinical prosthodontics lab by 12.15pm. Total of 84 student took part. They were provided with an acrylic teeth set. Articulated occlusal rims approved by their respective departments & all necessary instruments were brought by the participants. Time limit of 90 minutes was given for each them for setting. Dr.C.J.Venkatakrishnan M.D.S, Phd, Professor & H.O.D Department of Prosthodontics & Principal of Tagore Dental College and Hospital judged the competition. Two best teeth setting were awarded first & second prizes.

REPORT

The Implantology Course kicked off with an engaging first day on 24th May 2023, covering a broad spectrum of topics starting with an inauguration. Dr. Venkatakrishnan's session introduced the fundamentals of implants, while Dr. Tamizhesai explored the historical development of implantology. The technical aspects of implants were further delved into by Dr. M. Navinbharathy, who discussed implant biomaterials, and Dr. Helen, who covered components of end-osseous and root form implants. The day ended with Dr. Anand's insightful session on documentation and the publication of implant case studies.

Day 2 on 26th October 2023 continued with Dr. Venkatakrishnan revisiting implant fundamentals, followed by Dr. Riaz's explanation of the surgical protocol in implant placement. Dr. Jacob then guided the participants through implant and surgical kit identification. Dr. Helen presented again on the components of implants, reinforcing key concepts from Day 1. Day 3, on 17th November 2023, focused more on the prosthetic side of implantology. Dr. Venkatakrishnan provided an overview of prosthetic options, while Dr. Rathinavel Pandian explained impression techniques, and Dr. Anand covered screw and cement-retained prostheses.

Day 4, scheduled for 1st December 2023, will offer a deep dive into more advanced topics, starting with Dr. Venkatakrishnan discussing the digital workflow in restoration. Dr. Bhuvaneshwari will cover the management of failing and ailing implants, followed by Dr. Rathinavel Pandian on types of prostheses. After a lunch break, Dr. Anandh will present on over dentures, while Dr. Jacob and Dr. Navin Bharathy will tackle complications, management, and challenges in implant restoration. The day will conclude with Dr. Lokesh's session on the latest advances in implantology, providing a comprehensive overview of the field's current trends.

COURSE OUTCOME

The Implantology Course aims to equip participants with a comprehensive understanding of both the foundational and advanced concepts in dental implantology. By the end of the course, attendees will have gained in-depth knowledge of implant materials, surgical protocols, and prosthetic options, along with practical insights into implant placement, restoration, and management. The course also emphasizes the importance of digital workflows, as well as effective documentation and publication of clinical cases. Through a series of well-structured sessions led by expert faculty, participants will be prepared to handle various challenges in implant treatment, from initial planning to complex complications, and will be up-to-date with the latest advancements in the field of Implantology.

Short Report:

The BASIC LIFE SUPPORT program was planned by the Department of Oral and Maxillofacial Surgery to provide a solid theoretical background and hands on training in CARDIO PULMONARY RESUSCITATION (CPR) to young dental students. Hence registration of third year students was done.

Third year students lecture on theoretical basics and principles of BASIC LIFE SUPPORT and scientific evidence for CARDIO PULMONARY RESUSCITATION was given by TACT. Students were separated into two groups in order to receive a good exposure to and hands on in giving CARDIO PULMONARY RESUSCITATION(CPR).

On the first day a batch of 47 students performed CARDIO PULMONARY RESUSCITATION(CPR) on mannequins. At the end of the hands on, test was conducted to assess the students understanding in basic life support. Remediation was done for students who did not perform well.

On the second day a batch of 46 students performed CARDIO PULMONARY RESUSCITATION(CPR) on mannequins. At the end of the hands on, test was conducted to assess the students understanding in basic life support.

Remediation was done for students who did not perform well

A total of 80 students were benefitted and trained in the TACT Academy certified Basic Life Support Program in this current academic year.

Report

The department of conservative dentistry and endodontics did a rotary endodontic certification course on 05-06-2023. Letter was submitted to IQAC and DEU requesting for permission. After the permission was granted, a one day lecture followed by three months course was conducted.

Lecture class was conducted by Dr. S. Balagopal, Professor and Head, and Dr. Vandana James, Professor, Dept of Conservative dentistry and Endodontics. All the students were present for the program. Materials were distributed and lecture was conducted on 05-06-2024.

The practical were conducted in two modules. First module includes demonstration in natural tooth, where Dr. Vandana James demonstrated in natural tooth and all the students were asked to perform rotary procedure in anterior and posterior teeth. The second module includes demonstration on live patient with rubber dam isolation.

After completion of demonstration, each students were allotted with 5 patient cases and their work was evaluated by the course mentors Dr. C. Charanya, Reader and Dr. Sarath Kumar, Senior Lecturer of the department. After approval of the cases, these cases were sent for approval from the chief course mentors Dr. S. Balagopal and Dr. Vandana James.

Industrial institutional connect was also conducted with MANI. Inc., during the course on 23-11-2023. With international speaker - Mr. SHINGO KURIYAMA, MANAGING DIRECTOR MMI, along with the MANI representative Mr. MANOJ MADHAVAN, RSM-SOUTH and Mr. SAKTHIVEL, TSM- TAMIL NADU

After intense training in rotary endodontic course 45 of them were qualified and they received their certificates from Dr. Gopi Krishna on the occasion of CONS ENDO DAY celebration on 05-03-2024. The following are the students.

Course content

What aspects of this course were most useful or valuable?

Getting a chance to work on patients and being guided by experienced doctors
Patient case
Step by step guidance by the mentors
Direct hands on the patients
Clear guidance and developing proper knowledge among the students
Learned molar root canals confident to perform now
While performing patient cases
Clinical aspect - handling the clinical cases
We are able to learn step by step about and procedures are what to be done
Hands on
Pt work

How was your experience during the course?
