NAAC-2.3.5

THE TEACHING LEARNING PROCESS OF THE INSTITUTION NURTURES CREATIVITY, ANALYTICAL SKILLS AND INNOVATION AMONG STUDENTS

Teaching in the classroom extends beyond mere knowledge sharing; it focuses on cultivating students' abilities and offering personal support. Creativity is a key element in this journey, allowing individuals to articulate their emotions and experiences, demonstrating their distinctiveness, problem-solving capabilities, and imaginative thinking. It also serves as a powerful tool to enhance comprehension and promote holistic development. The observance of significant days is organized to encourage creativity within various dental disciplines.

THE TAGORE DENTAL COLLEGE CENTRE FOR RESEARCH, INNOVATION AND ENTREPRENEURSHIP (TDCCRIE)

The Tagore Dental College Centre for Research, Innovation, and Entrepreneurship (TDCCRIE), a Pre-incubation Centre at Tagore Dental College and Hospital, was established with the goal of promoting and advancing research within the institution. This Centre was created through a tripartite agreement between TDCCRIE, Crescent Incubation and Innovation Council, and Simbioen Laboratories. The Centre has received funding of Rs. 10,5000/- from a research group at Jarzan University, Saudi Arabia, and successfully completed a project investigating the role of melatonin as a protective agent in the Periodontitis-Alzheimer's axis. The project is finished, and the report and manuscript are currently being drafted.
