# **REPORT**

Department of Public Health Dentistry of Tagore Dental College and Hospital organized an OSPE (Objective Structured Practical Examination) session for Final Year students on April 5th, 2024. The OSPE session aimed to assess their skills and knowledge in Public Health Dentistry. The session was conducted in Lecture Hall- 4 from 8:30 AM to 9:30 AM.

During the session, the students visited ten different stations where ten different spotters related to Public Health Dentistry were kept. They had one minute at each station to complete the task of answering the questions asked by the spotter present there. The session was well organized and supervised by the teaching staffs of the department who ensured that everything was conducted in smooth manner. This session was beneficial in many ways. It provided a structured way to evaluate the student's practical skills and knowledge in the subject. The short time at each station ensured that a variety of topics were covered within the given timeframe. Also, interacting with the spotters allowed students to receive immediate feedback and learn actively. The OSPE session was impactful in offering Final Year students a chance to demonstrate their understanding of Public Health Dentistry in an interactive and efficient manner.

We thank our chairperson Prof. Mala Madam and our Principal Dr. Venkatakrishnan Sir for giving us an opportunity and encouragement to conduct this OSPE session for the students.
