PROGRAM REPORT

On account of "World Geriatrics Day", Department of Public Health Dentistry of Tagore Dental College and Hospital in collaboration with **Indian Association of Public Health Dentistry, Tamil Nadu Chapter** organized a CDE program on the theme "**Dentistry Unveiled: Bridging Generations with Geriatric Dentistry**" on October 18th 2023. Pre-recorded Poster competition for Undergraduates, Post-graduates and faculties of dental colleges was also conducted in the CDE Programme.

The main focus on this CDE program was to inculcate the importance of providing Oral health care among the students. The Continuing Dental Education (CDE) program at Tagore Dental College, organized by the Department of Public Health Dentistry, aimed to address the unique oral health needs of the elderly population. This program sought to equip the students with advanced knowledge and skills essential for providing specialized care to

geriatric patients. By focusing on the specific challenges and considerations associated with aging, the CDE program contributed to enhancing the quality of

SUMMARY

Department of Oral and maxillofacial Pathology, Tagore Dental College & Hospital, conducted **CDE PROGRAM ON PLATELET CONCENTRATES**. The program was held on 12th December 2023, in the Dr.A.P.J Abdul Kalam auditorium, Tagore Dental College & Hospital. There were 23 participants (undergraduate students) and staffs. There were three lectures by eminent speakers. The aim was to orient and educate dental professionals about preparation of PRF, PRP and its application. The program started with Tamil Thai Vazhthu and lighting of Kuthuvilaku by the dignitaries, followed by the Vice Principal's Speech by Dr. S.Balagopal, Vice Principal Academics.

The CDE was started as planned with the first lecture on the topic, '**INTRODUCTION TO PRF and PRP**' by Dr. A.Hemalatha, Senior Lecturer, Department of Oral pathology, Tagore Dental College and Hospital.

The second lecture was on the topic, '**PRF APPLICATION IN PERIODONTICS**' by Dr.B.Bhuvaneshwari, Professor and Head, Department of Periodontics, Tagore Dental College and Hospital.

The third lecture was on the topic, '**PRF APPLICATION IN PEDODONTICS**' by Dr.R.Jayaprakash, Professor and Head, Department of Pedodontics, Tagore Dental College and Hospital. The speakers were honored with a memento and certificate.

It was followed by **DEMONSTRATION ON - PRP & PRF** for the participants.

The participants were appreciated with certificate of participation.

PROGRAM REPORT

CHANCE TO TRANCE (Sedation –Oral and Intranasal)

One of the most common challenges faced by pediatric dentists in daily practice is child behavior management. Treating children with negative behavior is almost difficult even for an experienced pediatric dentist. In this situation the uncooperative children can be bring to co operative behavior by using sedative drug administration techniques.

Our guest speaker **DR. S. Navaneetha Krishnan, MD DNB** Professor of Anesthesiology, Saveetha Medical College Hospital gave an informative lecture about the oral and intranasal sedation. Sir trained the participants on administration of oral midazolam and intranasal dexmedetomidine. The students benefitted from this interactive and enlightening session which will improve their knowledge & clinical skills on administration of sedative drugs.

PROGRAM REPORT

On account of "World Cancer Day", Department of Public Health Dentistry of Tagore Dental College and Hospital in collaboration with "Narain Sewa Sansthan in Tobacco Control And Co Lungs Poisoning" organized a CDE program based on theme "Oral Oncology Summit -2024 (hybrid mode) indexed at WHO health initiatives and health for all, Oxford, UK" on February 2nd and 3rd, 2024 at A.P.J Abdul Kalam Auditorium of Tagore Dental College and Hospital.

The conduct of Continuing Dental Education (CDE) Programme organized by the Department of Public Health Dentistry of Tagore Dental College and Hospital on World Cancer Day holds immense significance in creating awareness of Tobacco control. As tobacco use remains one of the leading risk factors for oral cancer, such programs play a pivotal role in educating dental professionals about the detrimental effects of tobacco on oral health and its link to various cancers. By equipping budding dentists with knowledge and resources to effectively counsel patients on tobacco cessation strategies, these programs contribute to broader efforts in tobacco control.
