Recognized by The Dental Council of India, New Delhi
Affiliated to the Tamilnadu Dr. M.G.R. Medical University, Chennai.

IMMUNIZATION POLICY

Immunization policy is to prevent or reduce the risk of transmission of vaccine-preventable and other communicable diseases between faculty, student-dentist and residents and their patients and other persons at Tagore Dental College

Immunizations substantially reduce the number of staff and students susceptible to infectious diseases, as well as the potential for disease transmission to other staff and students. Therefore, immunizations are an essential part of infection prevention and control programs

This policy shall apply to all clinical staff (For example: dental hygienist, dental assistants and radiology technicians) clinical faculty, student-dentists and residents.

All staff and students enrolled in the college are compulsorily immunized for Hepatitis-B as it is a potentially life-threatening liver infection which spreads by exposure to infected bodily fluids and front-line workers and doctors are more exposed to it and booster dose is given to persons in the interval of 0-day, 1 month and 6 months. Students are vaccinated in the first year itself.
